betaNB: Staging

Ivan Jacob Agaloos Pesigan

1 Nonparametric Bootstrap

```
# Fit the regression model
object <- lm(QUALITY ~ NARTIC + PCTGRT + PCTSUPP, data = nas1982)
# Generate the sampling distribution of parameter estimates
nb <- NB(object, R = 5000, seed = 42)

#> Error in `.NBVechCov()`:
#> !  object '_betaNB_NBVechCov' not found

nb

#> Error:
#> !  object 'nb' not found
```

2 Standardized Regression Slopes

```
out <- BetaNB(nb)

#> Error:
#> !  object 'nb' not found

# Methods ------------------------------------------------------
print(out)

#> Error:
#> !  object 'out' not found

summary(out)

#> Error:
#> !  object 'out' not found

coef(out)

#> Error:
#> !  object 'out' not found
```

```
vcov(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BC
type <- "bc"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BCA
type <- "bca"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

3 Multiple Correlation

```
out <- RSqNB(nb)
```

```
#> Error:
#> !  object 'nb' not found

# Methods ------------------------------------------------------
print(out)

#> Error:
#> !  object 'out' not found

summary(out)

#> Error:
#> !  object 'out' not found

coef(out)

#> Error:
#> !  object 'out' not found

vcov(out)

#> Error:
#> !  object 'out' not found

confint(out)

#> Error:
#> !  object 'out' not found

# BC
type <- "bc"
print(out, type = type)

#> Error:
#> !  object 'out' not found

summary(out, type = type)

#> Error:
#> !  object 'out' not found

confint(out, type = type)

#> Error:
#> !  object 'out' not found

# BCA
type <- "bca"
print(out, type = type)

#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

4 Semipartial Correlation

```
out <- SCorNB(nb)
```

```
#> Error:
#> !  object 'nb' not found
```

```
# Methods ------------------------------------------------------
print(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
coef(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
vcov(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BC
type <- "bc"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
# BCA
type <- "bca"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

5 Improvement in R-Squared

```r
out <- DeltaRSqNB(nb)
```

```
#> Error:
#> !  object 'nb' not found
```

```r
# Methods ----------------------------------------------------------
print(out)
```

```
#> Error:
#> !  object 'out' not found
```

```r
summary(out)
```

```
#> Error:
#> !  object 'out' not found
```

```r
coef(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
vcov(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BC
type <- "bc"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BCA
type <- "bca"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

6 Squared Partial Correlation

```
out <- PCorNB(nb)
```

```
#> Error:
#> !  object 'nb' not found

# Methods ----------------------------------------------------------
print(out)

#> Error:
#> !  object 'out' not found

summary(out)

#> Error:
#> !  object 'out' not found

coef(out)

#> Error:
#> !  object 'out' not found

vcov(out)

#> Error:
#> !  object 'out' not found

confint(out)

#> Error:
#> !  object 'out' not found

# BC
type <- "bc"
print(out, type = type)

#> Error:
#> !  object 'out' not found

summary(out, type = type)

#> Error:
#> !  object 'out' not found

confint(out, type = type)

#> Error:
#> !  object 'out' not found

# BCA
type <- "bca"
print(out, type = type)

#> Error:
#> !  object 'out' not found
```

```
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

7 Differences of Standardized Slopes

```
out <- DiffBetaNB(nb)
```

```
#> Error:
#> !  object 'nb' not found
```

```
# Methods ------------------------------------------------------
print(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
summary(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
coef(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
vcov(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
confint(out)
```

```
#> Error:
#> !  object 'out' not found
```

```
# BC
type <- "bc"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
# BCA
type <- "bca"
print(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
summary(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```

```r
confint(out, type = type)
```

```
#> Error:
#> !  object 'out' not found
```
